

"I suggest also providing 4-hour synthetic lessons for each module, to get the best results even in the short term for those who can not follow a longer course, and for a total of 5 meetings in 1 year"

Franziska Galander
Expert at Thüringer Ökoherz (GE)

"The ReKuk project offers an important training tool that can harmonize training and information standards in different regions of the Czech Republic"

Jan Moudrý Sr.
Director of the Department of Organic Agriculture at the Faculty of Agriculture of the University of Bohemia South to České Budějovice (CZ)

"The training update carried out and dedicated to chefs and managers of collective meals, offers new educational content and highlights the precious interdependence that links each of the modules, for the effective sustainability of the school lunches"

Francesca Coppola
Expert AIAB Liguria (IT)

"The 5 modules offer to all stakeholders (directors, managers, experts, teachers, etc.) a structure to renew and optimize the learning system"

Giorgio Scavino
Expert at AIAB Liguria (IT)

"The dissemination of the course is also important from a social point of view for raising awareness of sustainability issues. In this way, REKUK cover an important role, because it describes the relationship of the school to the whole food chain"
